Pretoria, Gauteng, South Africa

I am a Bachelor of Computing student at Belgium Campus. I am fluent in Afrikaans and English, and proficient in working with computers in general. I'm passionate about building smart, scalable software solutions and exploring the intersection of technology and innovation. With a strong foundation in both frontend and backend development, I enjoy working on diverse projects—from web apps to intelligent drone systems.

I am eager to learn, and willing to take any position that would be beneficial towards the company's IT department. All qualifications and certificates can be sent upon request.

Work Experience
